

Perspective Plan 2024-2030

Establishment of the Knowledge World

School of Social Science	Introduce interdisciplinary programs combining sociology, psychology, anthropology, and political science.
School of Media Studies	Develop state-of-the-art media labs, offer courses in digital media, journalism, film studies, and mass communication.
School of Law	Expand legal education with specializations in international law, cyber law, and human rights.
School of Management	Focus on business administration, entrepreneurship, and public policy, integrating real-world business challenges.
Center of Research and Analysis	Promote advanced research in various fields, provide funding and resources for innovative projects.
Academy of IAS, IPS & IFS	Provide comprehensive training programs for civil services aspirants, including mock interviews and current affairs sessions.
Center for International Studies	Foster global awareness and cultural understanding through international relations and foreign policy courses.

International Collaborations

Partner with renowned international universities to offer student exchange programs, dual degree opportunities, and collaborative research projects. Enable students to transfer to partnered institutions during their course of study for diverse educational experiences and exposure to global standards.

Alumni Engagement

Establish a robust alumni network to support mentorship programs, guest lectures, and career guidance for current students. Create an Alumni Association internationally to facilitate fundraising, networking events, and development initiatives.

International Research Publications

Encourage faculty and students to publish research in high-impact international journals. Organize workshops and seminars on research methodologies and publication strategies. Provide incentives and recognition for significant research contributions.

Infrastructure Development

Modern Classrooms	Equip classrooms with advanced technology such as smart boards, projectors, and high-speed internet to support new-generation courses.
Hostels	Construct well-furnished hostels for boys and girls with all necessary amenities ensuring a safe and comfortable living environment.
Social Center	Develop a social center with recreational facilities, counseling services, and student clubs to promote a vibrant campus life.
Research Center	Build a dedicated research center with labs, libraries, and collaborative spaces to foster innovative research activities.
Startups and Incubation	Establish an incubation center to support student-led startups, provide mentorship, funding, and resources for entrepreneurial ventures.

Skill Development and Industry Collaboration

Partner with ASAP (Additional Skill Acquisition Program) to offer skill development courses that enhance employability. Collaborate with KELTRON for technical training programs, internships, and project opportunities in the field of electronics and IT.

Implementation Plan

Phase 1: 2024-2026	Establish the Schools of Social Science, Media Studies, Law, and Management. Initiate collaborations with at least five international universities. Launch the Alumni Association and start organizing networking events. Begin infrastructure upgrades, focusing on modernizing classrooms and building the research center. Implement the first batch of startups through the incubation center.
Phase 2: 2026-2028	Expand the Center for Research and Analysis and initiate more interdisciplinary research projects. Strengthen international collaborations by increasing student exchange programs and joint research publications. Complete the construction of hostels and the social center. Enhance the infrastructure for the Academy of IAS, IPS & IFS, providing comprehensive training resources.
Phase 3: 2028-2030	Fully operationalize the Center for International Studies with a diverse range of global programs. Increase the number of international research publications by 50%. Establish partnerships with leading industries through ASAP and KELTRON for advanced skill development courses. Conduct annual reviews and updates of strategic goals to ensure alignment with global educational standards and industry needs.

Monitoring and Evaluation

Set up a Strategic Planning Committee to monitor progress, evaluate outcomes, and make necessary adjustments. Conduct annual reviews involving stakeholders, including faculty, students, alumni, and industry partners. Use feedback mechanisms such as surveys, focus groups, and performance metrics to continuously improve and align with the institution's vision and mission.
